Unlock clinical excellence with TiP Elevate — a step-by-step, credits-based clinical approach designed to continue building on training base to grow skills year after year. This training offering minimizes patient care disruptions, allowing equipment optimization, clinical effectiveness, and increased staff performance.

Tailored to your team's schedule, skill levels, and preferences, TiP Elevate offers flexibility in achieving your clinical goals. Choose from a blended approach of offerings, including instructor-led virtual or onsite training, or headquarters courses, using your credits.
